

1. How to share video with Zoom on Mac/Windows

<p>Step 1</p>	<p>Make sure you have a Zoom app on your computer. If not, download the app for Windows or Mac from https://zoom.us/download and follow the instructions</p>	
<p>Step 2</p>	<p>Click the link we sent you in the email to join meeting instantly</p>	<p>Hello, [redacted] This is your Brighterly Tutor, [redacted] I am reaching out to inform you that I am waiting for you to join me in Zoom at https://us04web.zoom.us/ [redacted]</p>
<p>Step 3</p>	<p>Once you're in an active meeting, click on the "Share Screen" option from the bottom menu</p>	
<p>Step 4</p>	<p>If you are asked to allow Zoom to share your screen, click on "Open System Preferences" button</p> <p>! For Mac users only</p>	
<p>Step 5</p>	<p>With Screen Recording highlighted in the left sidebar, check the box next to "Zoom.us"</p> <p>! For Mac users only</p>	
<p>Step 6</p>	<p>In the resulting pop-up window, it is ok to click "Later".</p> <p>! For Mac users only</p>	
<p>Step 7</p>	<p>Then return to your Zoom meeting. Navigate to and select the video you wish to share, then click "Share".</p>	
<p>Step 8</p>	<p>You'll be notified when you've started sharing your screen. You will be able to pause the share using the controls at the top. When you're done screen sharing, click on "Stop Share", as shown right.</p>	

2. How to share video with Zoom on Mac/Windows

<p>Step 1</p>	<p>Once you are in a call with a teacher, you will receive a message in a Zoom chat. To open a chat, click on the "Chat" button from the bottom menu</p>	
<p>Step 2</p>	<p>After you click on the "Chat" button, you will see a message box at the right of the video. Click on the link that the teacher will send you and enjoy the lesson.</p>	

3. How to drag-and-drop on our system

	<p>With drag-and drop option you can select an object or a section of text and can move it to a desired location and "drop" it there.</p>	
<p>Step 1</p>	<p>First of all, put the mouse pointer over the object</p>	
<p>Step 2</p>	<p>Then press and hold down the left mouse button to grab the object</p>	
<p>Step 3</p>	<p>Drag the object to where you want to drop it</p>	
<p>Step 4</p>	<p>Release the mouse button. So, the motion for dropping an object is done</p>
